

Unisex Uniforms

In recent months we have successfully seen our female students begin to wear college trousers as part of the winter uniform. Our trouser range is designed to be unisex and be worn by both male and female students.

At the moment our college uniform documentation still states the 'old' rules where it says females to wear skirts and males are in trousers. This is currently being corrected by our Uniform Committee

Currently we are working toward how best to accommodate the needs of females for the summer uniform. We are currently confirming whether our current male shorts are also unisex. If they are not unisex, the college will begin the process to stock female shorts.

We are also investigating how best to stock a Samaritan short sleeved shirt for females. Currently there is not a short sleeve option for females. In the meantime, primary female students can wear the male short sleeve shirt if they want to.

The Uniform Committee will also determine an outcome for the smaller matter of what colour socks do girls wear with trousers/shorts.

The College PE uniform remains unchanged and is the same for boys and girls.
